

Resolution 2:

Whereas, the US AHA is considering options for regulatory changes to enhance the prevention and control of Avian Influenza, and

Whereas, the NPIP has a long-standing involvement in disease control programs in the poultry breeding and hatchery industry,

Therefore let it be resolved, the NPIP delegates wish to thank the USDA and the US AHA for providing a forum for discussion of a national Avian Influenza Program.

Be it further resolved, that the NPIP requests that the US AHA include the NPIP in further program discussions.
